Web: www.pirean.com

Course Summary

Format: Classroom

Duration: 2.0 Days

Price: 850.00 GBP plus VAT, 998.75 GBP incl VAT

Description:

Specialist course for Tivoli admins introduces rule writing using the TEC rules language - learn to program custom rules to respond to events, correlate multiple events, automate administration tasks, and read trace output to verify rules.

Audience

System Administrators who are responsible for programming Tivoli Enterprise Console rules.

Prerequisites

Familiarity with an appropriate text editor is required. While not a requirement for this class, knowledge of programming concepts would be beneficial. It is also recommended that you have some experience using programming languages such as Prolog, Rexx, shell scripting, or similar languages.

- Tivoli Enterprise Console (TM07GB)

About Pirean

Pirean deliver effective learning strategies of every kind (from practical education sessions to industry-leading seminars) to meet changing business need and technical drivers.

We help organisations of all sizes deliver business and technical understanding by enabling their most valuable asset, the workforce, with the right knowledge and skills to realise tangible service improvement.

From single seat learning to high-level briefings, Pirean's educators are expert in communicating to workforce members at every level the skills needed to further business opportunity and integrity.
