### Leading Services for Access and Identity Management

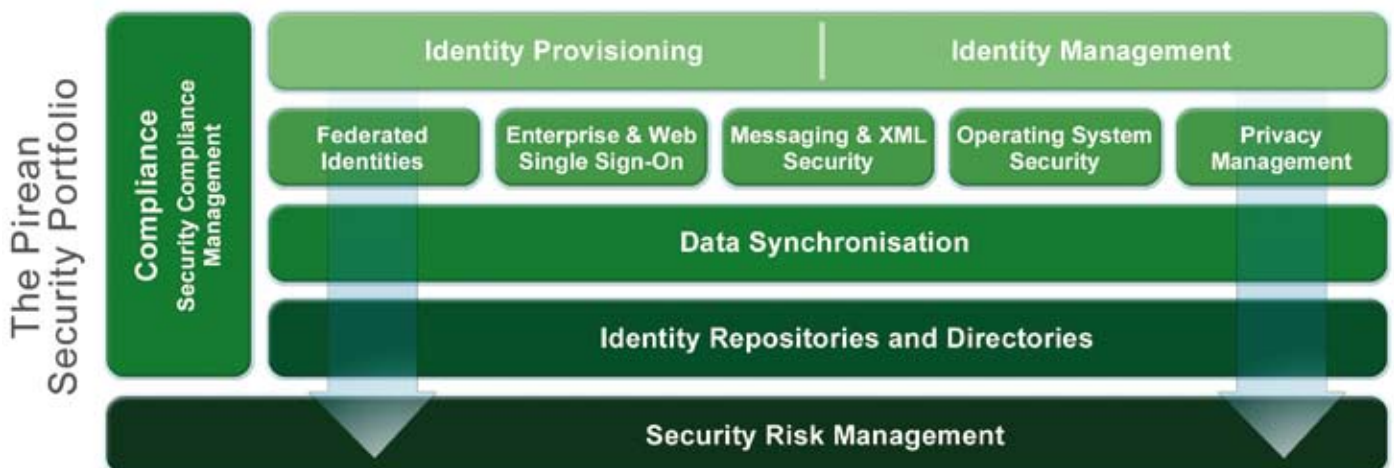

In the modern business environment, where opportunity counts for everything, the right security solution not only secures your infrastructure, but enables your business to succeed. With higher customer expectations and an increasing demand for new services, your business relies on technical agility to generate opportunity and keep your competitive edge.

Pirean's expert security services, together with IBM Tivoli software, create a trusted environment for collaboration and the delivery of new services. From identity provisioning and access control to single sign-on and federated identity management - the right approach to security significantly reduces risk, improves business control and provides a stronghold for best practice regulatory governance and compliance.

Pirean and IBM deliver integrity to your business process, increase security ROI and reduce manual maintenance requirements through:

- **Advanced Access Management**  
Using the IBM Tivoli Access Manager product suite.
- **Identity Management**  
Built on IBM Tivoli Identity Manager and Directory Integrator
- **Federated Identity Management**  
Built on IBM Tivoli Federated Identity Manager and the Access Manager product suite.
- **SOA Security**  
Built on IBM Tivoli Federated Identity Manager, the Access Manager product suite and the DataPower XS40 Security Gateway.

We provide an end-to-end portfolio - from project definition, design and development to extended support services.

From design and development, to implementation, support and IT service improvement; Pirean deliver trusted counsel and industry leading solutions to shape your security infrastructure into a valid business enabler.

### About Pirean

Pirean are acknowledged industry leaders in the delivery of enterprise solutions for business opportunity and business service excellence. We deliver effective strategies and technologies to power organisations and e-business.

Pirean deliver recognised expertise in Quality Management, Information Security Management and IT Service Management through services benchmarked to ISO 9001, ISO 27001 and ISO 20000 Standards.

As IBM Premier Business Partners, Pirean offer particular expertise in the delivery of IBM Tivoli, DB2, WebSphere and Express solutions for IT Service Management, Security Management and Service Oriented Architectures.

We deliver the right combination of skills and services to unlock your business potential and maintain the highest return on your IT investment.
